## Skills

### FULL STACK DEVELOPMENT

JavaScript  
jQuery  
AJAX  
APIs  
Node.js  
Angular.js  
Express  
Jade  
MS-SQL  
PHP  
Postgres  
Mongo  
HTML5  
CSS3  
VBA/Excel

### DESIGN

3D Studio Max  
Adobe Illustrator  
Adobe Photoshop  
Rapid Prototyping

## Summary

To obtain a junior-level development position with responsibilities ranging from front-end development to backend service and API development. I believe my experience in process improvement and knowledge of development principles coupled with reporting and data integration will prove to be an asset for any development team.

## Projects

### advan.io

My personal portfolio showcasing recent work.

### CheckMy.Style

Chrome browser extension and website to facilitate clothes shopping and social sharing of outfits.

### Word Explorer

API powered vocabulary exploration tool visualized with D3.js.

### Typographer

Exploration of the power of mixing AJAX and JavaScript to create dynamic page content.

## Employment

### Level 3 Communications Inc.

Broomfield CO,

#### Business Analyst I

Apr 2014 to Apr 2015

- Radically increased accuracy and eliminated manual data translation actions resulting in highly reduced time costs for important daily, weekly, and monthly report generation and dissemination. To complete these reports I developed and employed advanced SQL queries and MS-Office integration to include VBA, Excel and Word.

- Bridged the gap between internal information needs and the ability to communicate those needs via SharePoint as I became a central element regarding updating and improving our SharePoint site.

- Provided support and solution implementation for important first contact, customer facing website content.

### U.S. Air Force Reservist

Peterson AFB, Colorado Springs, CO

#### Signals Intelligence

Jun 2011 to Current

While deployed and in garrison, I contributed to the continuing evolution of our nation's defensive space control systems. Streamlined continuity between daily crews resulting in a marked increase in crew effectiveness. Implemented user friendly reporting mechanisms to facilitate day-to-day activity logging.

### Parsons Brinkerhoff

Denver CO

#### Architectural Animator

Apr 2009 to Jul 2010

- Created visualizations used in informational kiosks for the new Bay Bridge.

- Forged new processes as needed while engaging both animators and engineers in projects ranging from highway staging and construction to next-generation redevelopment projects.

## Education

### Galvanize Full Stack

Intensive 6 month full stack JavaScript development course

### Art Institute of Colorado

Bachelors of Arts 3D Animation 2001
